LA GAMMA CHOCADO

Dal laboratorio di innovazione di Silikomart Professional nasce Chocado: la nuova gamma di forme progettate da cioccolatieri per i cioccolatieri.

Silikomart Professional approda nel settore dell'alta cioccolateria portando con sé tutti i plus che caratterizzano il nuovo materiale Tritan™ e il silicone liquido platinico. Dall'alta performance, alla resistenza termica e all'estrema durevolezza.

I designer Silikomart con la gamma Chocado mirano inoltre ad ampliare gli orizzonti del cioccolato: alcune delle forme vengono abbinate a stampi in silicone dando così la possibilità ai cioccolatieri di realizzare inserti perfetti, unendo nuovi sapori e consistenze al cioccolato. I cioccolatini estivi ne sono l'esempio, perfetti da proporre anche nei mesi dove il consumo del cioccolato si riduce.

All'interno della gamma Chocado nasce inoltre una collezione signature, dove alcuni tra i più acclamati professionisti del panorama internazionale, danno vita a diverse forme per realizzare Praline, Snack Bar e Tablette.

The Chocado range

From the innovative laboratory of Silikomart Professional comes Chocado: the new range of shapes designed by chocolatiers for chocolatiers.

Silikomart Professional lands in the haute chocolatier sector bringing with it all the advantages that characterize the new Tritan™ material and the platinic liquid silicone. From high performance, to thermal resistance and extreme durability.

Through Chocado collection, Silikomart designers aim to broaden the horizons of chocolate: some shapes match with silicone moulds, in order to give the chance to chocolatiers to create perfect inserts, combining new flavours and textures and giving life to the so called “summer chocolates”. These chocolates will be the perfect to offer in those months where the chocolate consumption decreases.

Within Chocado range it is presented a collection designed and signed by some of the most acclaimed professionals on the international scene to create pralines, snack bar and tablette.

STYLE

Tritan™: MEGLIO DI QUALSIASI ALTRA PLASTICA

Gli stampi Chocado sono realizzati con il materiale innovativo Tritan™ che garantisce un'eccellente grado di durezza e sicurezza.

La superiorità di Tritan™ rispetto alle altre materie plastiche è stata chiaramente dimostrata e la qualità dei nostri stampi garantisce un'ottimo grado di stampaggio ed un'eccellente purezza del materiale.

DURATA

I prodotti realizzati con Tritan™ hanno un'estrema durezza. Infatti hanno una resistenza agli urti di gran lunga maggiore rispetto ad altre plastiche e vetro, resistendo straordinariamente agli urti, ai graffi e alle ammaccature, mantenendo queste proprietà anche dopo anni di utilizzo e migliaia di lavaggi in lavastoviglie.

SICUREZZA

Tritan™ non contiene BPA, BPS (bisfenolo S) e altri bisfenoli. È questa peculiarità a rendere Tritan™ un materiale adatto al contatto con gli alimenti.

Tritan™: BETTER THAN ANY OTHER PLASTIC

Chocado moulds are made with the innovative material Tritan™ that provides an excellent level of durability and safety. The superiority of Tritan™ over other plastics has been clearly demonstrated and the quality of our moulds guarantees an excellent degree of moulding and material purity.

DURABILITY

Products made with Tritan™ have extreme durability. In fact, they have a greater impact resistance than other plastics and glass, impressively resisting to bumps, scratches and dents, retaining these properties even after years of use and thousands of dishwasher washes.

SAFETY

Tritan™ does not contain BPA, BPS (bisphenol S) or other bisphenols. This fact ensures absolute reliability of these Tritan™ products for food contact.
